

# TB testing and treatment

Tuberculosis can be prevented with medicine.

## Testing for sleeping TB

- Get your skin test or blood test for TB
- We'll contact you with results

### How can I test for TB?

It's easy. Visit your GP or local clinic and ask your healthcare worker for a check-up for TB.

## Sleeping TB treatment

There is medicine to treat sleeping TB.  
Treatment keeps you strong and healthy.

## Take all your medicine

TB is **cured** when you take all your medicine  
- **don't stop!**

This will **protect you and others** from sickness  
and death caused by TB.

We are offering treatment to protect you and your family from TB.
